# StormPAVE™

## Large Spacer Nibs

- 💧 The environmental choice to preserve natural water drainage in a smooth segmental pavement.
- 💧 Large spacers for open joint drainage with maximum opening less than 1/2" to meet ADA requirements.
- 💧 High infiltration rate when installed in a "best practice" permeable pavement system.
- 💧 Perfect for plazas, pathways, parking lots—particularly at college & university settings where onsite LID stormwater management techniques employed.
- 💧 Can be incorporated into a permeable pavement design that could achieve a LEED Credit 6 Sustainable Site-Stormwater Design credit.
- 💧 2 1/4" x 4" x 8" with 8 1/2% Void Area (2 3/4" also available).
- 💧 Genuine Clay Paver—Strong, Durable & Colorfast
